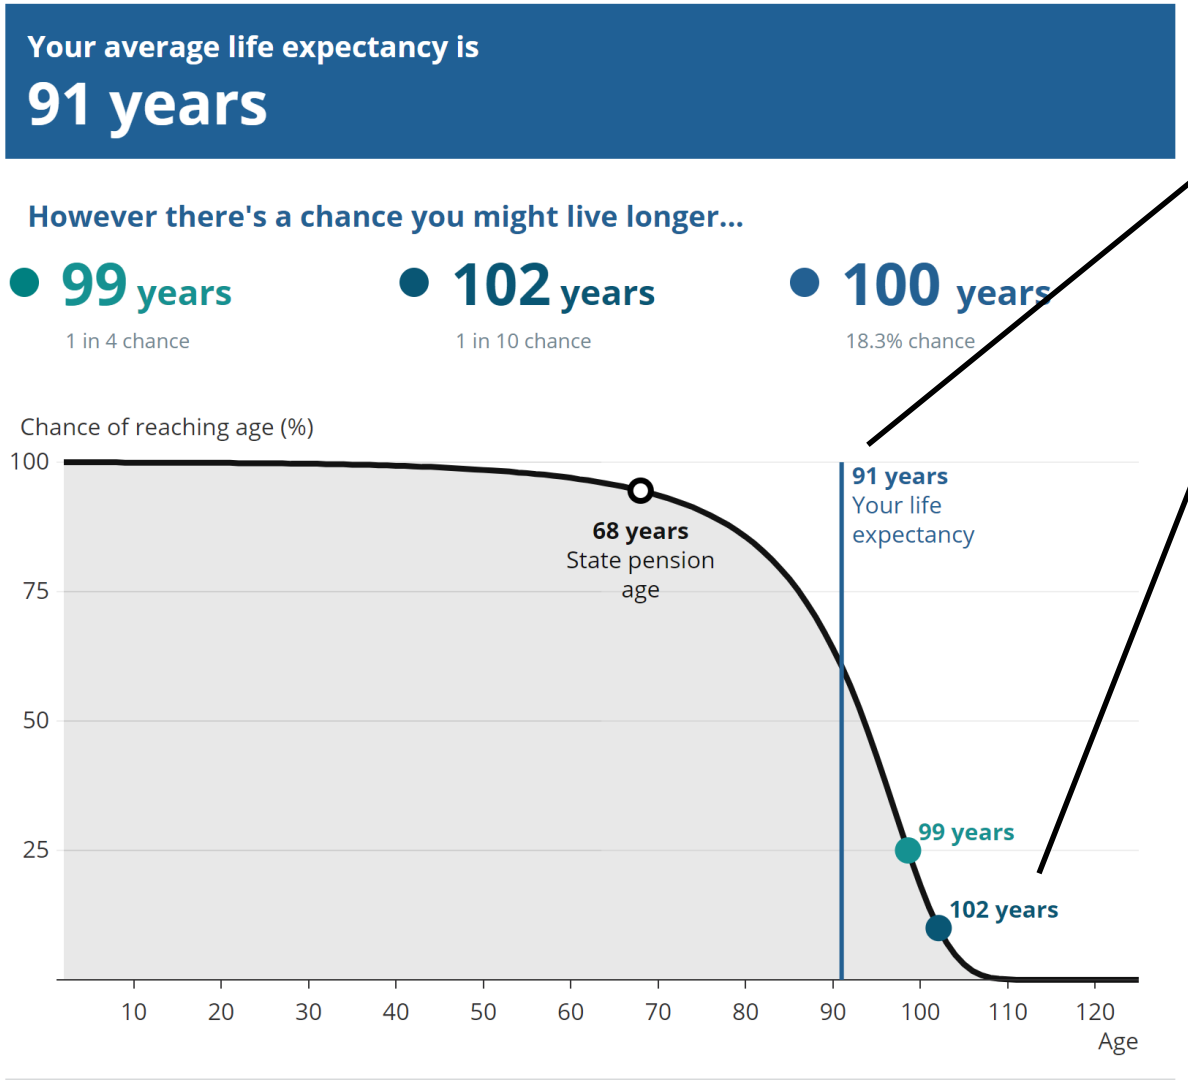
Research at LSE

Many more apple harvests to come …

My assistant, Thea, aged 2

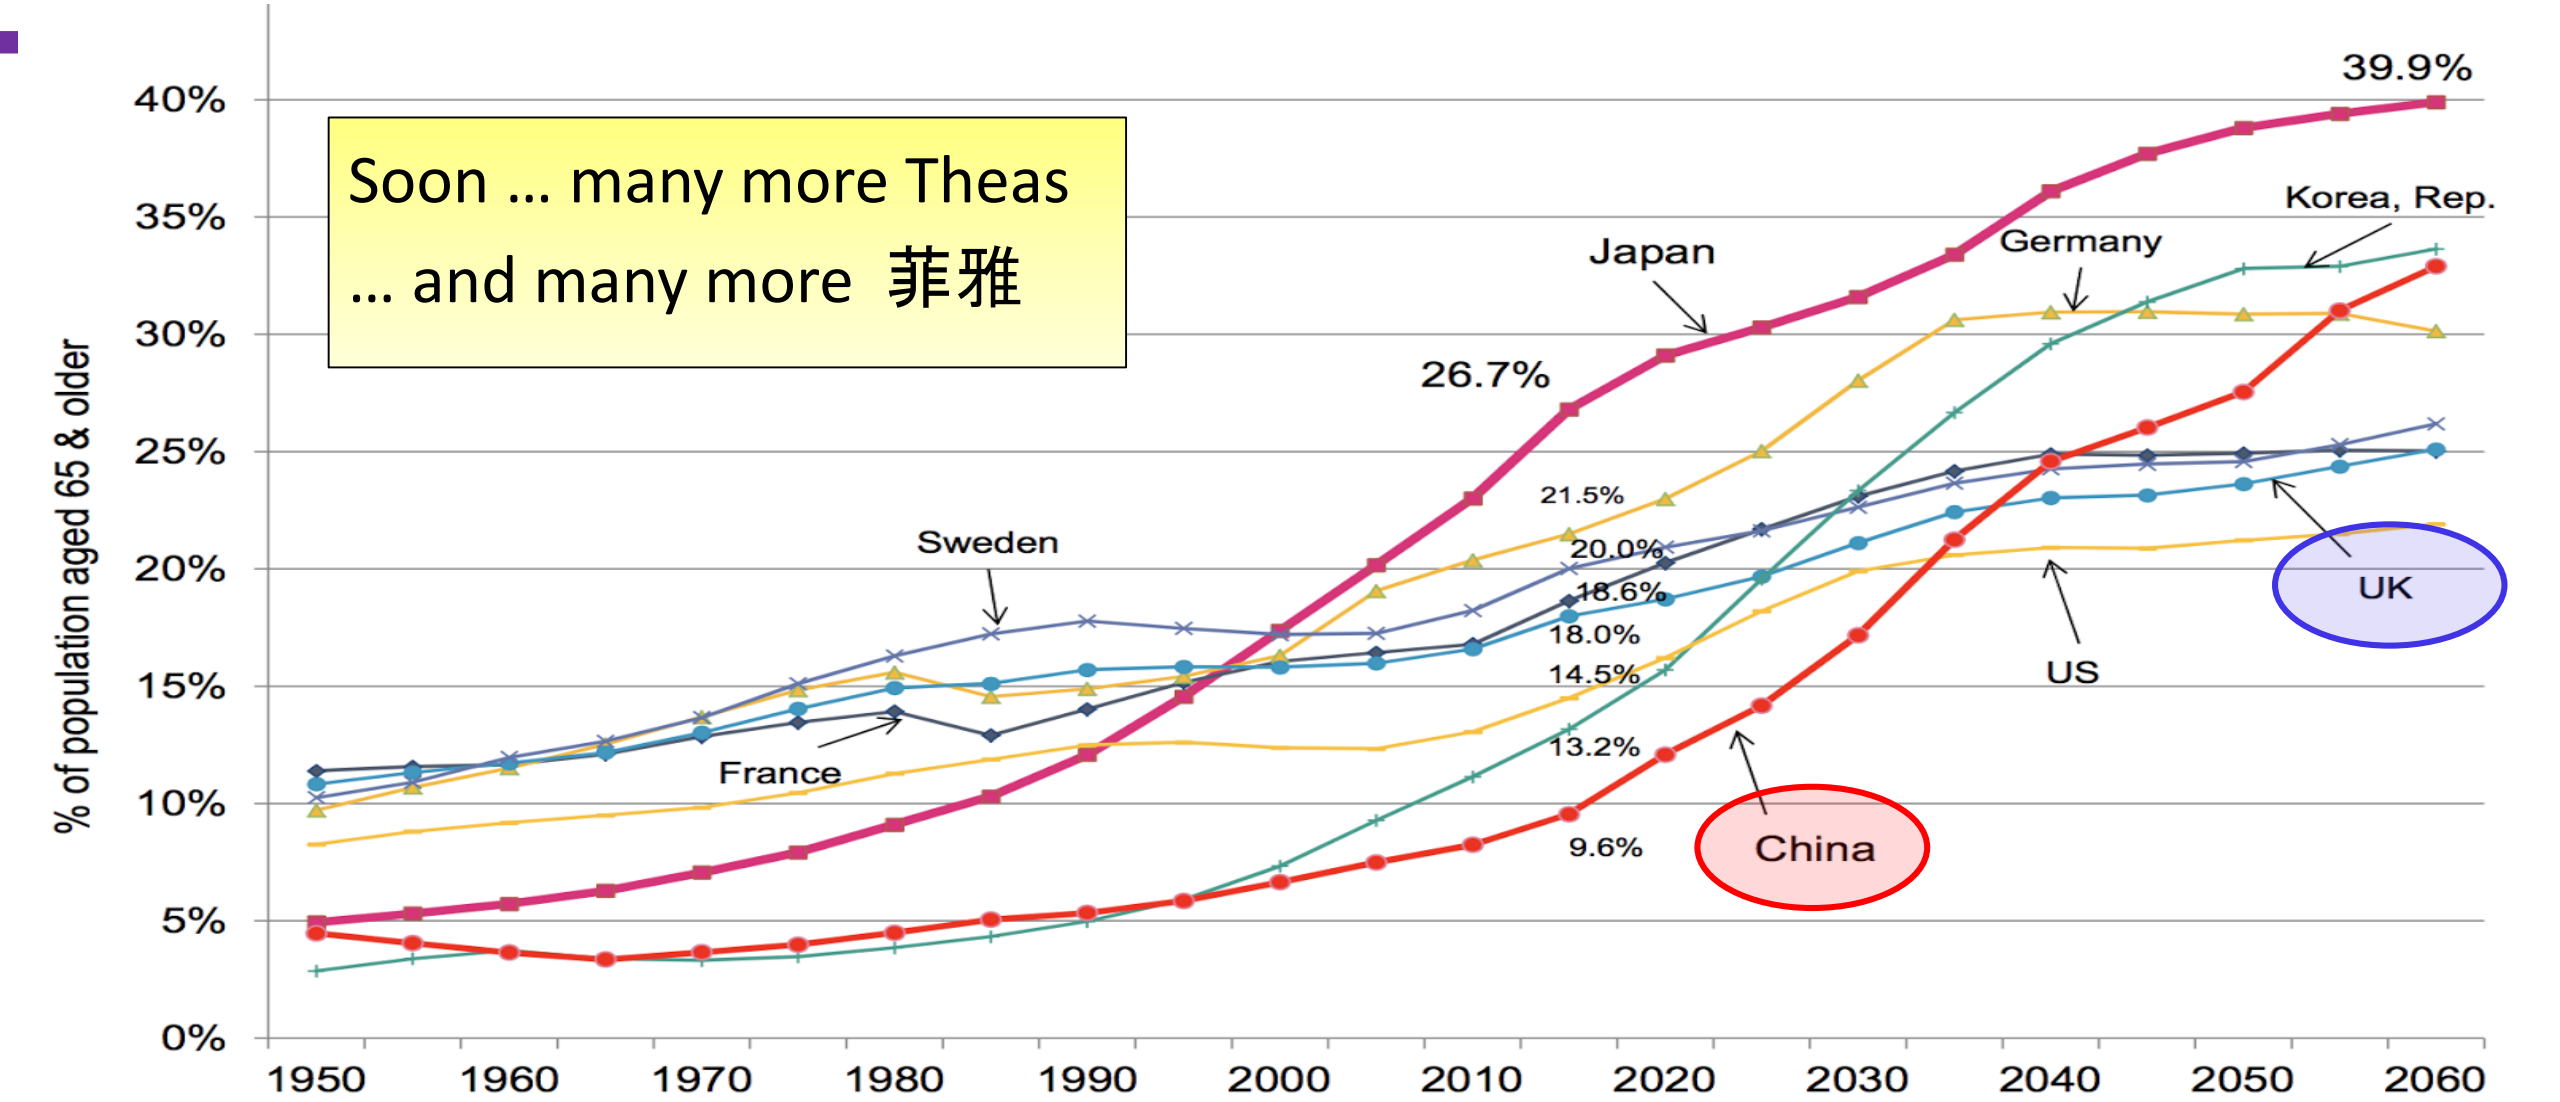


89 harvests later: **25%** chance of having dementia

100 harvests later: **37%** chance of having dementia

The dementia **prevalence rate** increases steeply with age

Changes in percentage of population aged over 65



Sources: For Japan – Ministry of Internal Affairs and Communications, Population Census; National Institute of Population and Social Security Research – "Population Projections for Japan (January 2012 estimate): Medium-Fertility & Medium-Mortality Assumption" (Figures as of Oct. 1 of each year)
For other countries – United Nations, World Population Prospects 2010

Projected costs of dementia care in England, 2015-40

STRiDE

If health and care systems do not change, total cost will increase by 249%

£ billion at 2015 prices

Unpaid care cost by 213%

Social care cost by 303%

Health care cost by 194%

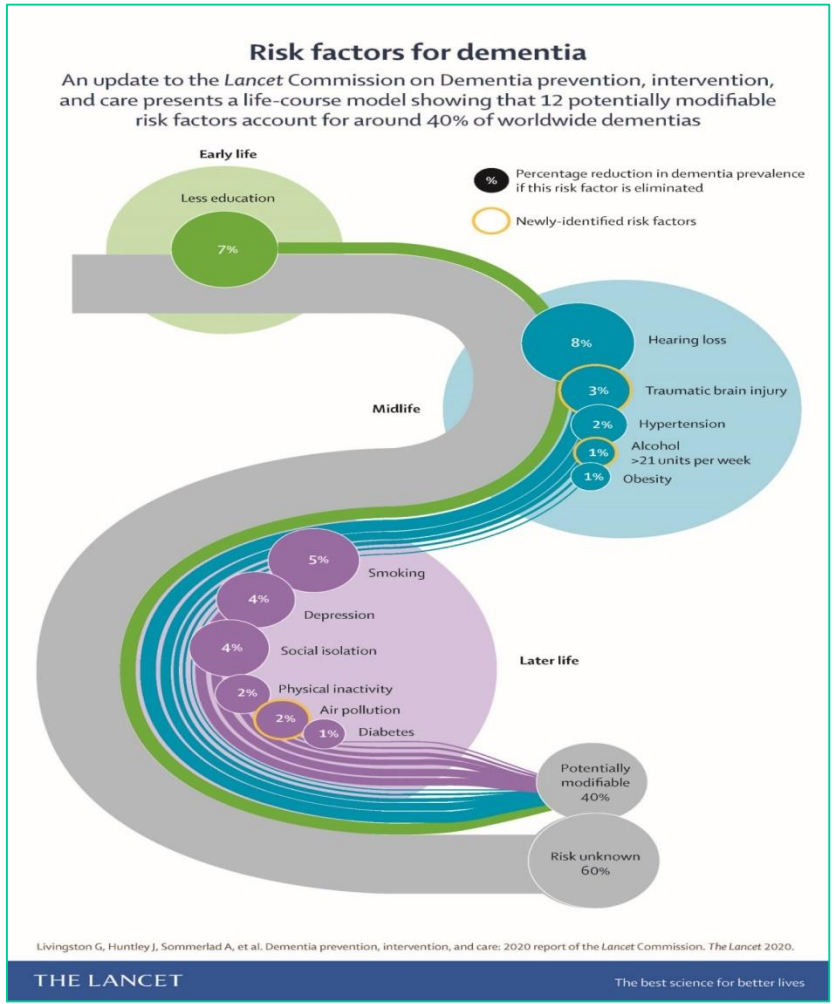
How should countries respond?

STRiDE

Find a cure?

Prevention?



Better care & support?

STRiDE – next slide – concentrates on care →

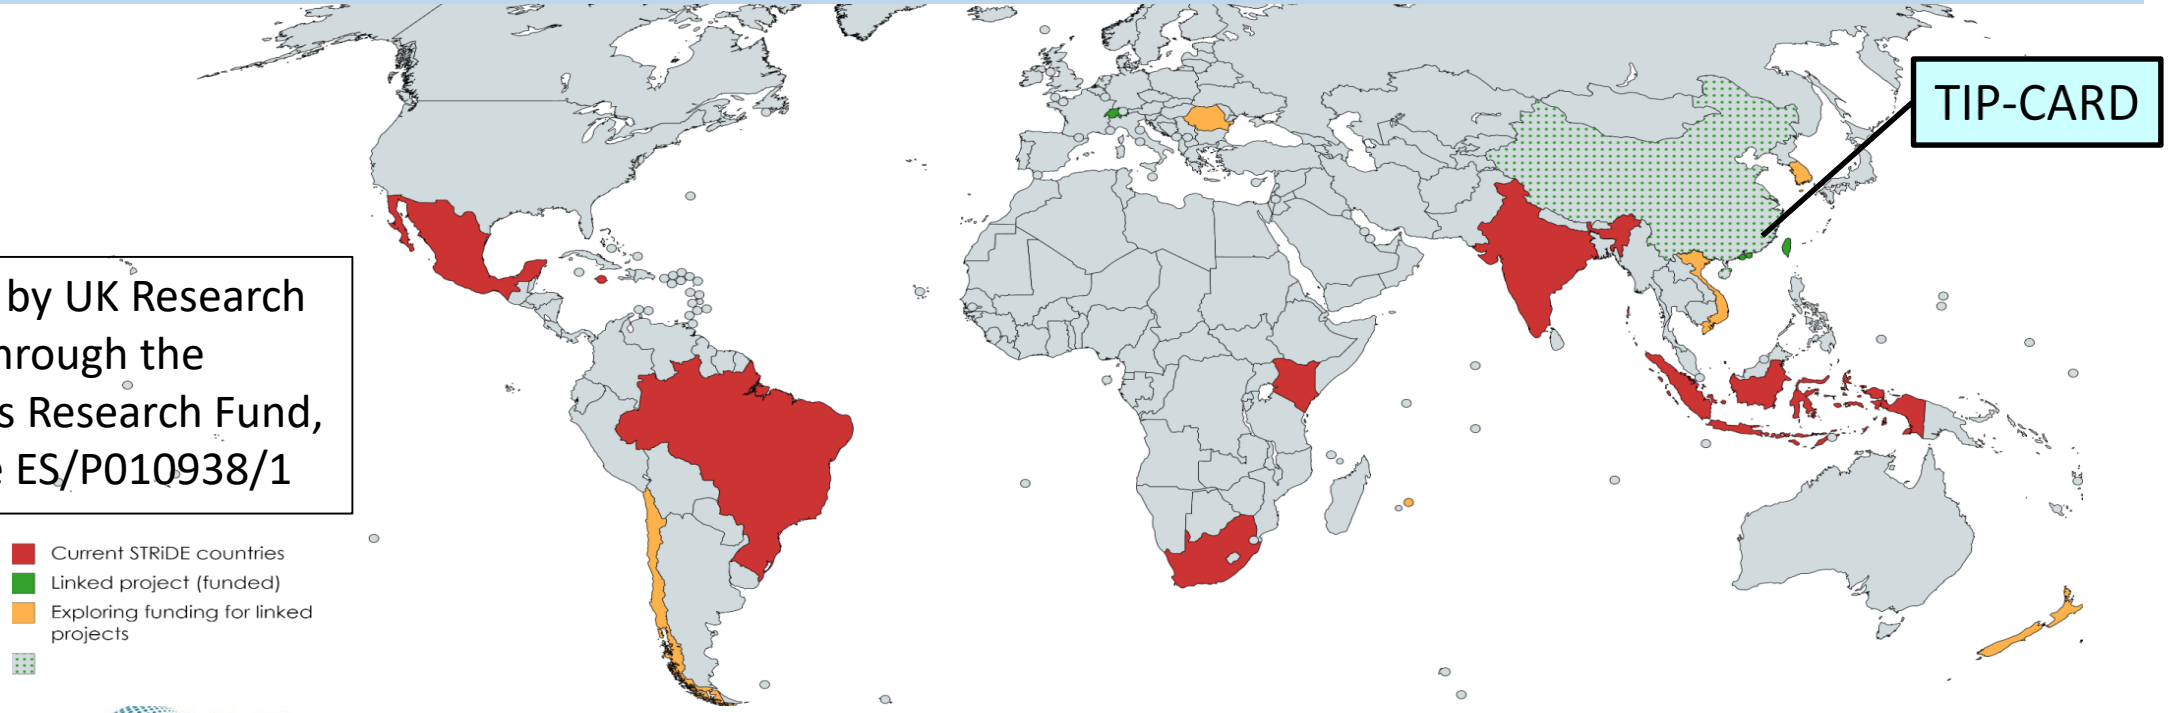
STRiDE: Strengthening responses to dementia in developing countries

Build capacity in generating & using research evidence to support policies to improve dementia care, treatment & support…

… particularly to help develop, finance, plan, implement & evaluate national dementia plans

… to help people living with dementia and their carers to live well



STRiDE is funded by UK Research and Innovation through the Global Challenges Research Fund, project reference ES/P010938/1

LSE in partnership with Univ Cape Town, ADI, DAI & others

STRiDE: research components

1. Situational analysis: dementia care & policy today
2. Theory of change: what needs to change, and how?
3. Cost of dementia
4. Simulation of *future* care scenarios, workforce & financing requirements
5. Systematic review of dementia interventions in LMICs
6. Stakeholder and impact analysis
7. Prevalence and impact survey (Indonesia, South Africa)
8. Evaluation of awareness/anti-stigma intervention (Brazil, Kenya)
9. Unpaid care: costs and consequences (India, Jamaica, Mexico)

affectionate
warm
hospitable
neighbourly
sympathetic
open
kindly
beneficial
helpful
favourable
non-hostile

This probably won't be achieved without help.

Communities, governments, service systems, employers need information, advice & evidence.
